An Old Time Radio Production

Come, relax, and enjoy a live production of Dicken's classic tale, A Christmas Carol, adapted as a radio drama by Tony Palermo. Step back to a time when a great works of literature were read aloud by a cast of celebrity actors and actresses on radio. A live studio audience looked on as the orchestra set the mood and the sound effects team created the wind and storms and rain to bring the story to life as the actors stood at microphones.

An Annual VFTE Community Theater Production.
